Software & System Engineering  
Secretariat: CANADA (SCC)

## ISO/IEC JTC1/SC7 N2720, 2002-10-19

**Document Type** Letter Ballot Summary  
**Title** New proposal for a standard on Petri Net Techniques  
**Source** JTC1/SC7 Secretariat  
**Project** ISO  
**Status** Accepted  
**References**  
**Action ID** FYI or ACT  
**Due Date**  
**Mailing Date** 2002-10-19  
**Distribution** SC7\_AG; P, O & L Members  
**Medium** Acrobat  
**No. of Pages** 3  
**Note** ‘\*’ besides a country name indicates that the country should re-send to the secretary a copy of its record of its ballot

|                                                                                                                                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Results</b> (the compilation of results is given in the next page)                                                                                             |
| <b>The following criteria for acceptance have been met:</b>                                                                                                       |
| <input checked="" type="checkbox"/> Approval by a simple majority of the voting P-members                                                                         |
| <input checked="" type="checkbox"/> 5 or more P-members voting approval have agreed to participate in the development of the project and have nominated an expert |
| <input checked="" type="checkbox"/> Approval by JTC1                                                                                                              |
| <b>The proposal is therefore:</b>                                                                                                                                 |
| <input checked="" type="checkbox"/> <b>Approved</b> (all approval criteria met)                                                                                   |
| <input type="checkbox"/> <b>Not approved</b> (one or more approval criteria not met)                                                                              |
| <b>Experts:</b>                                                                                                                                                   |
| Australia: editor – Jonathan Billington                                                                                                                           |
| Canada: J. Bérubé                                                                                                                                                 |
| Denmark: commit one resource – to be nominated                                                                                                                    |

| UK             | The UK approves the proposal for a new work item on Petri Net Techniques (N 2658) under the JTC 1 SC 7 programme of work and would like to participate in its development (although we are not able to provide an editor at this point in time). |
| Canada         | Canada supports the NWI, This project is with WG19, Jean Bérubé will continue participating, Australia supplies the editor                                                                                                                       |
| Australia      | Q4: Editor: Jonathan Billington (editor of 15909)<br>Q5 and Q6: <b>SC7 N2634</b> (ISO/IEC FCD 15909 revised after comment resolution)                                                                                                            |
|                |                                                                                                                                                                                                                                                  |
